Polydrill Engineers Pvt. Ltd.

ISO 9001: 2015, ISO 14001: 2015 & OHSAS 18001: 2007 Certified Company

Our Journey

Our Journey

1978

The foundation of Polydrill Engineers Pvt. Ltd. was laid by two determined first generation entrepreneurs Mr. K. K. Ravindran and Mr. O. K. Varghese.

1985

The initiative was incorporated as a company and it focused its business on providing specialized services and supply of equipments mainly catering to Oil Industry.

Present

The Company has today emerged as a multi-discipline group, actively engaged in operation spanning the fields of design, fabrication, erection, leasing of equipment, operation and maintenance services in the areas of oil field, petrochemicals and cement industries.

About Us

About Us

Polydrill Engineers Pvt.Ltd is a Service Provider for Oil Drilling, Cementing and Grouting Companies engaged in offshore and onshore oil drilling operations in India and Abroad.

Undertakes design, fabrication and supply of complete range of pneumatic bulk handling equipments as per the customer requirements.

Provides on lease bulk handling equipment to Oil Drilling and Cementing companies along with operational services on contract basis.

Provides grouting equipment on lease along with operational services to Grouting Companies for offshore construction work and laying of undersea pipelines.

Supplies experienced personnel for cementing jobs in support of oil drilling operations.

Our Design and Engineering Division

Our Design and Engineering Division

Our design and engineering division under a team of qualified and experienced personnel have to their credit the reputation of designing the following equipments of international standards:

- Bulk Handling Equipments
- Grouting Equipments
- Gas Burners
- Refining Kettles

The Company has designed and fabricated the biggest storage silo for pneumatic operation in India for Oil and Natural Gas Corporation Ltd.

Our Grouting Division

Our Grouting Division

Polydrill has a dedicated Grouting Division which provides Grout Plant and its related bulk handling equipments on rentals along with operational services to meet a wide range of requirements of Grouting Companies.

Polydrill prepares excellent quality slurry for grout bag filling and supplies concrete mattress for pipeline job.

Our Fabrication Division

Our Fabrication Division

Polydrill also has expertise in fabrication and erection of equipments like Pressure Vessels, Heat Exchangers, Gas Burners, Refining Kettles, Pneumatic Bulk Handling Equipments and Grout Plant Equipments.

The Company has supplied and commissioned pneumatic storage Silos, both vertical and horizontal, Cutting Pods, Blenders, Surge tanks, Mobile Silos, Mobile Cement Handling Units, Batch Mixing Unit and Grout Plant. Polydrill has well equipped factory to undertake heavy fabrications at 19-B, Additional Ambarnath, MIDC, Anand Nagar, Ambarnath – (E), Maharashtra, India.

Our Bulk Handling / Cementing Division

Our Bulk Handling / Cementing Division

Polydrill provides complete set of bulk handling equipments on lease along with operational services to oil drilling and cementing companies in India and Abroad.

Polydrill has Batch Mixing and Cementing Units and team of personal well equipped in operations and maintenance of Cementing Units.

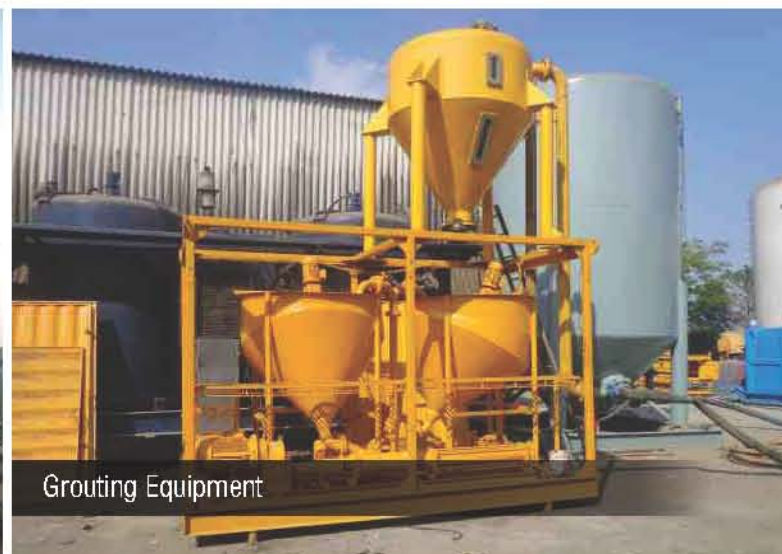

Our Expertise

Our Expertise

- Design, Fabrication and Supply of all equipments for Pneumatic Bulk Handling Systems.
- Providing on Rentals complete Bulk Handling Plant as per customer requirement along with Operational Services for Cementing jobs related to Oil Drilling Operations.
- Providing on Rental Grouting Plant Equipment along with Operational Services for Offshore Grouting and Pipeline works.
- Providing on Rentals Cementing Unit for Cementing Jobs related to Oil Drilling Operations.
- Structural work for repairs & replacement of Process and Utility Piping at Process Platform.
- Replacement and laying of PVC / PP flow lines at Process Complex on Platforms.
- Providing Technical Manpower supply catering to Oil field services for Operation and Maintenance of Cementing Units.

Our Product / Service Application

Our Product / Service Application

The Company provides commonly needed equipment and services in support of Oil Drilling and Grouting Operations in India and abroad.

- 1 Pneumatic Storage Silos (Capacity : 1100 CFT / 1500 CFT / 2000 CFT)
- 2 Cutting Pods (Capacity : 50 CFT / 100 CFT)
- 3 Blender (Capacity : 500 CFT)
- 4 Surge Tanks (Capacity : 70 CFT)
- 5 Truck Mounted Mobile Silos (Capacity : 20 MT)
- 6 Truck Mounted Mobile Cement Handling Unit (Capacity : 20 MT)
- 7 Cementing Unit CPS-361
- 8 Grouting Plant (Capacity : 1500 Ltrs.)

Our Prestigious Projects

Our Prestigious Projects

- Replacement of Produced Water Header connected piping at BHN platform for M/s. Oil & Natural Gas Corporation Ltd. Mumbai.
- Design and fabrication of storage silos, blender, transportation silos, cuttings pods including complete piping for M/s. Oil India Ltd.
- Service Provider for Rental & Operation of Grout Plant for ONGC Pipeline Projects.
- Approved Service Provider for Bulk Handling Services for rentals of equipment and operational services to Schlumberger Asia Services Ltd. and Oil & Natural Gas Corporation Ltd.
- Approved Service Provider for Bulk Handling Services for rentals of equipment and operational services to Halliburton Offshore Services Ltd. and Oil India Ltd.
- Design, manufacture, erection, installation and commissioning of skid mounted 6000 CFT capacity pneumatic silos (pressure vessel) for M/s. Oil & Natural Gas Corporation Ltd., Mumbai.
- Service Provider to M/s. Oil & Natural Gas Corporation Ltd. Mumbai since November 1985 for operation and maintenance of Pneumatic bulk handling plant at Nhava Sheva, Mumbai.

Our Quality Policy

ISO 9001: 2015, ISO 14001: 2015 & OHSAS 18001: 2007 Certified Company

Polydrill Engineers Pvt. Ltd. is committed to carry out Engineering activities related to specialized services in Oil Drilling Operations, with focus on Customer Satisfaction and Service Excellence in terms of better quality, better efficiency, better productivity and healthy work environment. This will be achieved through active involvement of committed individuals with necessary training imparted to them to implement and improve in conformance with International Standards of ISO 9001: 2015, ISO 14001: 2015 & OHSAS 18001: 2007 Certified Company

Our HSE Policy

Polydrill has its own HSE Policy. Company's highest priorities are accident prevention, health of employees and protection of environment. The Policy expectations are Leadership and Accountability, Risk Assessment, Audit and Continual Improvement, Training and Emergency preparedness.

Our Team

Our Team

Polydrill finds its strength in its highly qualified team. Together they work towards the common goal ensuring that all the efforts are focused towards achieving excellence in their products and services. Presently Polydrill Team comprises 250 members of technical, administrative, marketing and support staff.

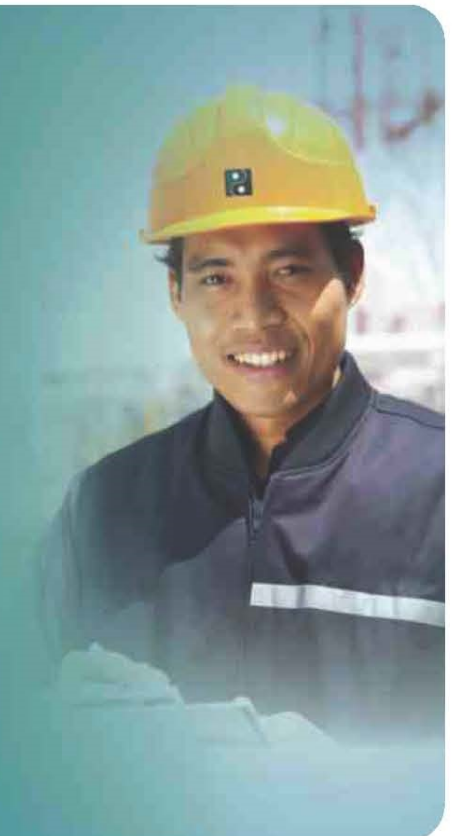

Our Quality Assurance

Polydrill is committed to quality Products and Services. The in-house QC Department is managed by technical experts who have vast experience in the field.

The QA department draws plans with respect to job requirement inspection stages, welder qualification and fabrication quality. Preparation of QC check-hold points as per relevant codes etc. and builds liaison with external inspection agencies.

For special application critical monitoring and special technical audit, third party quality management consultants are engaged wherever required on a case by case basis.

For each contract, QC procedures and stages are discussed with clients/ consultants and based on their requirement check hold points are identified as the quality control plan. Inspection is carried out at agreed stages.

Our Commitment

As Supplier and Service Provider we remain committed to providing excellent product and services and are confident that the know-how and experience gone into our Products and Services will ensure that the customer receives the best.
